## HOSTED VIDEO SERVICE DESIGNED FOR YOUR BUSINESS

CompleteView Cloud™ is an enterprise level hosted video solution that delivers on the promise of 'easy-to-use' video. With CompleteView Cloud, instant access to live and recorded video with playback and export functionality is hosted in the cloud, powered by Dell vCloud. Hosted video is fast becoming the next essential service in the security industry.

CompleteView Cloud provides you with an easy way to increase your video surveillance coverage without the expense of on-site hardware, software maintenance and technical support personnel. This plug and play solution allows users to monitor facilities from anywhere, anytime on existing mobile devices, PC's, desktops or workstations. And because CompleteView Cloud supports unlimited users with cloud-based infrastructure, business growth and expansion are as easy as adding a camera and pushing a button.
